

Product sheet

RUKO 5 x 160 mm SDS-plus drill bit with high durability and drilling precision.

Brand: Ruko

Reference: TUR 211051

Ruko-211051 SDS-plus S4 drill bit (5 x 160 mm) designed for hammer drills with SDS-plus connection. Made with a carbide insert and reinforced core, ideal for drilling granite, concrete, stone, and bricks, guaranteeing stability and low vibration.

[View product online](#)**Description**

The Ruko-211051 SDS-plus S4 drill bit (5 x 160 mm) is designed to deliver exceptional performance when drilling hard materials. Compatible with all rotary hammers with SDS-plus and two-flute chucks, such as the HILTI TE 10-22, this tool is ideal for professionals who require precision and durability in their projects. Its original carbide insert (Widia) and 130° cutting angle ensure efficient penetration and a clean finish on various surfaces.

Brazing at temperatures exceeding 1000°C provides superior strength, allowing the drill bit to maintain its integrity even under demanding working conditions. The reinforced core of the drill bit ensures excellent stability during drilling, minimizing vibrations and improving the user experience.

Furthermore, its S4 quadruple spiral facilitates material extraction, optimizing the drilling process.

- Dimensions: 5 x 160 mm
- Connection: SDS-plus and HILTI TE 10-22
- "Widia" carbide insert
- Cutting angle: 130°
- Welded at over 1000°C
- Reinforced core for stability
- Vibration-free
- S4 quadruple spiral for efficient extraction
- Suitable for: granite, concrete, stone, marble, bricks, and walls

Specifications

High	3,00
Width	3,00
EAN	4007140035714
Manufacturer	Ruko
Weight (kg)	0,0500
Depth	16,50
