

Product sheet

RUKO 12mm x 310mm SDS-plus drill bit, high strength and precision.

Brand: Ruko

Reference: TUR 211124

Ruko-211124 SDS-plus S4 drill bit (12 x 310 mm) designed for hammer drills with SDS-plus connection. Made with a carbide insert and reinforced core, ideal for drilling granite, concrete, stone, and bricks, guaranteeing stability and low vibration.

[View product online](#)**Description**

The Ruko-211124 SDS-plus S4 drill bit (12 x 310 mm) is designed to deliver exceptional performance when drilling hard materials. Compatible with all rotary hammers with SDS-plus and two-flute chucks, such as the HILTI TE 10-22, this tool is ideal for professionals who require precision and durability in their projects. Its original carbide insert (Widia) and 130° cutting angle ensure efficient penetration and a clean finish on every hole.

The drill bit features brazing at temperatures exceeding 1000°C, making it extra-resistant and capable of withstanding demanding working conditions. Its reinforced core provides excellent stability during use, minimizing vibrations and improving operator comfort.

Furthermore, the quadruple S4 spiral facilitates material removal, optimizing the drilling process.

- Type: SDS-plus S4 hammer drill bit
- Dimensions: 12 x 310 mm
- Compatibility: Hammer drills with SDS-plus connection and HILTI TE 10-22
- Material: Carbide "Widia" insert
- Cutting angle: 130°
- Brazing: Temperature above 1000°C
- Core: Reinforced for greater stability
- Vibration: Vibration-free during use
- Spiral: Quadruple S4 for efficient material removal
- Applications: Granite, concrete, stone, marble, bricks, walls

Specifications

High	4,00
Width	4,00
EAN	4007140051448
Manufacturer	Ruko
Weight (kg)	0,1600
Depth	31,50
