

Product sheet

RUKO 14mm x 260mm SDS-plus drill bit, high strength and precision.

Brand: Ruko

Reference: TUR 211142

Ruko-211142 SDS-plus S4 drill bit (14 x 260 mm) designed for hammer drills. Made with a carbide insert (Widia) and reinforced core, it offers stability and reduces vibration. Ideal for drilling granite, concrete, stone, marble, and brick.

[View product online](#)**Description**

The Ruko-211142 SDS-plus S4 drill bit (14 x 260 mm) is a high-precision tool designed to meet the demands of drilling hard materials. Compatible with all rotary hammers with SDS-plus and two-flute chucks, such as the HILTI TE 10-22, this drill bit stands out for its robustness and efficiency. Its original carbide insert (Widia) and a 130° cutting angle guarantee optimal performance in a variety of applications. Brazing at temperatures exceeding 1000°C provides exceptional strength, ensuring a long product lifespan.

The drill bit's reinforced core offers excellent stability during use, minimizing vibrations and allowing for more controlled and precise work. Furthermore, its quadruple S4 flute facilitates material removal, improving efficiency with every hole.

This drill bit is suitable for a wide variety of surfaces, including granite, concrete, stone, marble, bricks, and walls.

- Model: Ruko-211142
- Type: SDS-plus S4 Drill Bit
- Size: 14 x 260 mm
- Material: Carbide "Widia"
- Cutting Angle: 130°
- Brazing: Temperature above 1000°C
- Core: Reinforced for greater stability
- Vibration: Vibration-free during use
- Spiral: Quadruple S4 for efficient material removal

- Applications: Granite, concrete, stone, marble, bricks, walls

Specifications

High	5,00
Width	5,00
EAN	4007140035783
Manufacturer	Ruko
Weight (kg)	0,1600
Depth	26,50
