Description

The Ruko-210050 percussion drill bit is a professional tool designed to deliver exceptional performance when drilling hard materials. Made from refined special steel, this drill bit stands out for its high toughness and durability, making it the ideal choice for working with concrete, clinker, granite, and masonry. Its optimized design includes a cutting edge with a special carbide insert, ensuring efficient and long-lasting penetration into demanding surfaces.

The 130° cutting angle allows for greater drilling efficiency, while the special, highly resistant welding ensures the drill bit's integrity during use.

Its cylindrical shank is compatible with hammer drills that use drill chucks, facilitating its installation and use in various applications.

- **Material:** Refined special steel
- **Size:** 5 x 150 mm
- **Applications:** Concrete, clinker, granite, and masonry
- **Type:** Hammer drill bit
- **Cutting edge:** Special carbide plate
- **Cutting angle:** 130°
- **Welding:** Special, highly resistant welding
- **Shank:** Cylindrical
- **Packaging:** Individual plastic bag

Specifications

EAN	4007140020178
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0200
