

Product sheet

RUKO concrete drill bit, carbide tip, 3 mm x 70 mm, high durability.

Brand: Ruko

Reference: TUR 221030

Ruko-221030 drill bit for concrete and granite, with 3 x 70 mm carbide tips. Designed for hammer drills, it features a cylindrical shank and a 130° cutting angle, ideal for materials such as stone and brick.

[View product online](#)**Description**

The Ruko-221030 drill bit is specifically designed for drilling hard materials such as concrete, granite, marble, Dutch brick, stone, and walls. Its cylindrical shank provides a firm and comfortable grip, making it easy to use with hammer drills. The drill bit features a durable cutting edge, ideal for withstanding the demands of working on hard surfaces. The extra-tough carbide insert ensures superior durability, while its brazing is designed to withstand high temperatures, guaranteeing optimal performance even under extreme conditions. With a 130° cutting angle, this drill bit allows for efficient and precise drilling.

- **Model:** Ruko-221030
- **Type:** Drill bit for concrete and granite
- **Dimensions:** 3 x 70 mm
- **Shank:** Cylindrical
- **Cutting edge:** Durable for use with a hammer drill
- **Insert:** Extra-hard alloy carbide
- **Brazing:** High-temperature resistant
- **Cutting angle:** 130°
- **Applications:** Concrete, granite, marble, Dutch brick, stone, and walls

Specifications

EAN	4007140058072
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0100
