Description

The Ruko-221050 drill bit is a high-precision tool designed for drilling hard materials such as concrete, granite, marble, Dutch brick, stone, and walls. Its cylindrical shank allows for a firm grip and optimal control during use, while its durable cutting edge is specially designed for use with hammer drills, guaranteeing superior performance in demanding tasks. The extra-strong carbide insert, bonded with high-temperature welding, ensures long-lasting durability and consistent efficiency with every hole. With a 130° cutting angle, this drill bit facilitates penetration into hard materials, optimizing the work process.

- **Model:** Ruko-221050
- **Type:** Concrete and Granite Drill Bit
- **Tip:** Carbide
- **Dimensions:** 5 x 85 mm
- **Shank:** Cylindrical
- **Use:** Hammer Drilling
- **Material:** Carbide Alloy
- **Resistance:** High-Temperature Welding Proof
- **Cutting Angle:** 130°
- **Applications:** Concrete, Granite, Marble, Dutch Brick, Stone, and Walls

Specifications

EAN	4007140058096
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0100
