

Product sheet

RUKO concrete drill bit, carbide tip, 13 x 150 mm, high durability and precision.

Brand: Ruko

Reference: TUR 221130

Ruko-221130 drill bit for concrete and granite, with a carbide tip measuring 13 x 150 mm. Designed for hammer drills, it features a 130° cutting angle and is suitable for concrete, marble, brick, and stone.

[View product online](#)**Description**

The Ruko-221130 drill bit is a high-precision tool designed for drilling hard materials such as concrete, granite, marble, Dutch brick, stone, and walls. Its cylindrical shank provides a secure and comfortable grip, ideal for use with hammer drills. The drill bit features a durable cutting edge that ensures optimal performance in demanding tasks, while its extra-tough carbide insert is brazed to withstand high temperatures, guaranteeing durability and efficiency with every use. With a 130° cutting angle, this drill bit allows for efficient and rapid penetration into even the toughest materials.

- **Model:** Ruko-221130
- **Type:** Concrete and granite drill bit
- **Dimensions:** 13 x 150 mm
- **Shank:** Cylindrical
- **Cutting edge:** Durable for hammer drill use
- **Insert:** Extra-hard alloy carbide
- **Brazing:** High-temperature resistant
- **Cutting angle:** 130°
- **Applications:** Concrete, granite, marble, Dutch brick, stone, and walls

Specifications

EAN	4007140061157
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,0900
