Product sheet

VOGEL trapezoidal thread pattern 30º thread - ideal for mechanical applications.

Brand: Vogel

Reference: TUR 472004

Vogel-472004 trapezoidal thread pattern with a 30° angle. Available in thread pitches from 2 to 12. Ideal for applications requiring precision in the manufacturing and assembly of mechanical components.

Description

The Vogel-472004 trapezoidal thread pattern is an essential tool for machining and manufacturing applications requiring precision and reliability. With a 30° thread angle, this pattern is designed to facilitate the creation of trapezoidal threads in a variety of materials. Its design allows for better force transmission and a more secure fit, making it an ideal choice for screws and nuts that bear heavy loads. The available thread pitches, ranging from 2 to 12, offer versatility to suit different production needs.

- **Thread Type:** Trapezoidal 30°
- **Available Thread Pitches:** 2, 3, 4, 5, 6, 7, 8, 9, 10, 12
- **Applications:** Machining, screw and nut manufacturing
- **Compatible Materials:** Various materials, including metals and plastics
- **Advantages:** Improves power transmission and secure fit
- **Accuracy:** High precision in thread manufacturing
- **Durability:** Designed for extended use in industrial environments
- **Ease of Use:** Compatible with standard cutting tools
- **Standards:** Meets industrial quality standards
- **Dimensions:** Vary depending on the selected thread pitch

Specifications

EAN	4010873243202
Manufacturer	Vogel
Weight (kg)	0,0200
