Description

The Sola-AV80 spirit level is a high-precision measuring tool designed to meet the needs of construction and carpentry professionals. With an 800 mm aluminum tubular profile and dimensions of 50 x 21 mm, this level combines lightness and strength, weighing only 520 g/m. Its natural anodized surface provides durability and a clean aesthetic, while the high-contrast FOCUS bubbles ensure clear and accurate readings in various lighting conditions.

Equipped with two bubbles—one luminous horizontal bubble with a magnifying lens and one vertical bubble—the Sola-AV80 offers a maximum tolerance of 0.5 mm/m (0.029°) in the standard position and 0.75 mm/m (0.057°) in the inverted position, ensuring reliable results every time. The innovative SOLA FOCUS bubble allows for 25% faster and 25% more accurate leveling, as well as improving readability by 45%.

This level has been preferred by 86% of users, highlighting its effectiveness in the field.

- Rectangular aluminum profile 50x21 mm
- Weight of 520 g/m
- Natural anodized surface
- Two bubbles: horizontal luminous with magnifying glass and vertical
- Maximum tolerance: 0.5 mm/m (0.029º) in standard position
- Maximum tolerance: 0.75 mm/m (0.057º) in inverted position
- 25% faster leveling
- 25% more accurate leveling
- 45% improved reading

- Preferred by 86% of users

Specifications

High	2,00
Width	5,00
EAN	9002719000365
Manufacturer	Sola
Weight (kg)	0,4700
Depth	80,00
