Description

The Sola-AV120 spirit level is a high-precision measuring tool designed to meet the needs of construction and carpentry professionals. With a rectangular aluminum profile of 50x21 mm and a weight of 520 g/m, this level combines durability and lightness, facilitating its handling in various applications. Its natural anodized surface provides additional resistance to corrosion and wear, ensuring a long product lifespan.

Equipped with two bubbles, one luminous horizontal bubble with a magnifying lens and one vertical bubble, the Sola-AV120 allows for clear and precise readings in any lighting condition. The maximum tolerance in the standard position is 0.5 mm/m (0.029°) and in the inverted position is 0.75 mm/m (0.057°), guaranteeing reliable results every time.

The innovative SOLA FOCUS bubble enhances the leveling experience, offering 25% greater speed and accuracy, as well as 45% better readability, which has led 86% of users to prefer this model.

- 50x21 mm rectangular aluminum profile
- Weight of 520 g/m
- Natural anodized surface
- Two bubbles: luminous horizontal with magnifying lens and vertical
- Maximum tolerance: 0.5 mm/m (0.029°) in standard position
- Maximum tolerance: 0.75 mm/m (0.057°) in inverted position
- 25% faster leveling
- 25% more accurate leveling
- 45% better readability

- Preferred by 86% of users users

Specifications

High	2,00
Width	5,00
EAN	9002719000389
Manufacturer	Sola
Weight (kg)	0,6800
Depth	120,00
