Description

The Sola-AV200 spirit level is a high-precision measuring tool designed to meet the needs of construction and carpentry professionals. With a rectangular aluminum profile of 50x21 mm and a weight of 520 g/m, this level combines durability and lightness, facilitating its transport and use in various applications. Its natural anodized surface guarantees superior corrosion resistance and an aesthetic finish that lasts over time.

Equipped with two bubbles, one luminous horizontal bubble with a magnifying lens and one vertical bubble, the Sola-AV200 allows for clear and precise readings in any lighting condition. The maximum tolerance in the standard position is 0.5 mm/m (0.029°) and in the inverted position 0.75 mm/m (0.057°), ensuring reliable results with every measurement.

The innovative SOLA FOCUS bubble enhances the leveling experience, achieving 25% greater speed and accuracy, as well as 45% better readability, which has led 86% of users to prefer this model.

- 50x21 mm rectangular aluminum profile
- Weight of 520 g/m
- Natural anodized surface
- Two bubbles: luminous horizontal with magnifying lens and vertical
- Maximum tolerance: 0.5 mm/m (0.029º) in standard position
- Maximum tolerance: 0.75 mm/m (0.057º) in inverted position
- 25% faster leveling
- 25% more accurate leveling
- 45% better readability

- Preferred by 86% of users users

Specifications

High	2,00
Width	5,00
EAN	9002719010067
Manufacturer	Sola
Weight (kg)	1,0300
Depth	200,00
