Description

The Sola-SLG2200 level is an essential tool for carpenters and construction professionals seeking precision and durability in their work. Made with a 100x18 mm aluminum profile and weighing 870 g/m, this level combines lightness and strength, making it an ideal partner for a variety of applications. Its design includes two openings with plastic handles that facilitate handling and transport, ensuring comfort during use.

The Sola-SLG2200 features two spirit levels: one horizontal and one vertical, allowing for alignment checks in multiple directions.

With a maximum tolerance of 0.75 mm/m (0.043º), this level guarantees precise results, essential for high-quality work.
