Description

The Sola-PF80 spirit level is a measuring tool designed for accuracy and durability in a wide range of applications. Its rectangular body is made of a special injection-molded plastic, making it virtually unbreakable and resistant to deformation. This level is unaffected by water, cold, and heat, ensuring reliable performance in adverse conditions. Equipped with two bubbles—one horizontal with a magnifying lens and one vertical—it allows for easy reading and precise alignment. With a maximum tolerance of 1.0 mm/m, equivalent to 0.057°, it is ideal for work requiring high accuracy.

- **Material:** Special injection-molded plastic
- **Dimensions:** 800 mm in length
- **Bubble Type:** 2 (1 horizontal with magnifying glass and 1 vertical)
- **Maximum Tolerance:** 1.0 mm/m = 0.057°
- **Resistance:** Virtually unbreakable and non-deformable
- **Resistance to weather conditions:** Unaffected by water, cold, and heat
- **Use:** Ideal for construction and carpentry work
- **Readability:** Horizontal bubble with magnifying glass for greater precision
- **Design:** Rectangular body for comfortable handling
- **Applications:** Aligning structures, assembling furniture, and more

Specifications

High	2,50
Width	5,00
EAN	9002719037927
Manufacturer	Sola
Material	Plástico

Weight (kg)	0,4000
Depth	80,00
