CALFLEX CSF core discs, 50 mm in diameter and 13 mm thick.

Brand: Calflex

Reference: TUR CSF50

50 mm diameter, 13 mm thick CSF core discs, made with non-woven nylon fibers and silicon carbide abrasive. Ideal for polishing welds, cleaning painted and rusted surfaces, and stripping varnishes.

[View product online](#)**Description**

Calflex-CSF50 CSF core discs are an advanced surface treatment solution, specifically designed to deliver superior performance in a variety of applications. Made from a flexible, black abrasive material, these discs are composed of highly resistant, non-woven nylon fibers impregnated with coarse-grain silicon carbide abrasive. Their innovative design allows them to conform to all surfaces, ensuring a flawless finish without causing damage or overheating. Furthermore, they feature an anti-clogging property that improves efficiency during use.

- **Outer Diameter:** 50 mm
- **Thickness:** 13 mm
- **Core:** 13 mm
- **Material:** Non-woven nylon fibers
- **Abrasive:** Coarse-grain silicon carbide
- **Color:** Black
- **Applications:** Polishing welds on stainless steel
- **Use:** Cleaning and polishing painted, rusted, and corroded surfaces
- **Function:** Stripping varnishes
- **Property:** Anti-clogging

These discs are ideal for professionals who seek high-quality results in surface treatment, ensuring a perfect finish in every application.

Specifications

High	0,00
Width	0,00

EAN	8435130702630
Manufacturer	Calflex
Weight (kg)	0,0000
Depth	0,00
