CALFLEX core discs 75 mm in diameter and 13 mm thick for precise cutting.

Brand: Calflex

Reference: TUR CSF75

75 mm diameter, 13 mm thick CSF core discs, made with non-woven nylon fibers and silicon carbide. Ideal for polishing welds on stainless steel and cleaning painted, rusted, and corroded surfaces. Anti-clogging.

[View product online](#)**Description**

CSF Calflex-CSF75 core discs are a high-quality tool designed to meet the polishing and cleaning needs of various applications. Made from a flexible, black abrasive material, these discs are composed of non-woven nylon fibers, giving them exceptional durability. Impregnated with coarse-grit silicon carbide abrasive, they adapt to all surfaces, ensuring an optimal finish without causing damage or overheating. Its anti-clogging design allows for prolonged and efficient use in demanding tasks.

- **Outer diameter:** 75 mm
- **Thickness:** 13 mm
- **Core:** 13 mm
- **Material:** Non-woven nylon fibers
- **Abrasive:** Coarse-grain silicon carbide
- **Color:** Black
- **Applications:** Polishing welds on stainless steel
- **Use:** Cleaning and polishing painted, rusted, and corroded surfaces
- **Function:** Stripping varnishes
- **Additional features:** Adaptability to various surfaces without damaging them

These discs are Ideal for professionals seeking high-quality results in their finishing and restoration projects.

Specifications

High	0,00
Width	0,00
EAN	8435130702647
Manufacturer	Calflex
Weight (kg)	0,0000
Depth	0,00
