The GT Line-2214.BE EXPLORER 2214 waterproof case is the ideal solution for those who require safe and reliable transport of their equipment in extreme conditions. Made of high-density plastic resin (enriched polypropylene), this case is designed to withstand impacts, crushing, and adverse conditions. Its IP67 rating guarantees complete protection against water, remaining watertight to a depth of 10 meters, making it a perfect choice for outdoor activities and military applications. Furthermore, its construction makes it resistant to dust, sand, and corrosive products, ensuring the integrity of its contents in any environment.

- Shockproof and crushproof
- Waterproof - IP67 certified - Watertight up to 10m
- Dustproof and sandproof
- Corrosive-proof
- Pressure change resistant
- Temperature tolerance: -33°C/+90°C
- Stackable, even with models of different sizes
- Valve for adjusting internal pressure
- Neoprene gaskets for complete watertightness
- Corrosion-resistant reinforced metal hinges

The case also features strong pressure latches, supports to keep it upright with the lid open, an ergonomic handle, and a name and address label. Available in various colors, including orange and military green upon request, and with an optional customized interior featuring layers of micro-perforated foam for optimal personalization.

Specifications

High	30,00
Width	25,00
