Description

The GT Line-4419.B EXPLORER 4419 waterproof case is the ideal solution for those who require safe and reliable transport of their equipment in extreme conditions. Designed with a focus on durability and protection, this case is made of high-density plastic resin (enriched polypropylene), making it resistant to impacts, crushing, and corrosive products. Its IP67 certification guarantees complete watertightness, allowing it to be submerged up to 10 meters, as well as being completely dustproof and sandproof. The GT Line-4419.B is designed to withstand pressure changes and extreme temperatures, with a range of -33°C to +90°C. Its stackable structure allows it to be combined with other models of different sizes, facilitating storage and transport. It includes multiple padlock points, ensuring maximum security for its contents. The internal pressure valve automatically adjusts to sudden changes in altitude or temperature, while the neoprene seals ensure a complete airtight seal.

- Shock and crush resistant
- Waterproof - IP67 certified - Watertight up to 10m
- Dust and sand resistant
- Corrosive resistant
- Temperature tolerance: -33°C/+90°C
- Stackable with different sized models
- Designed for military applications
- Corrosion-resistant reinforced metal hinges
- Robust and ergonomic handle
- Multi-layered micro-perforated foam interior

Specifications

High	50,00
Width	45,00
EAN	8024482015316
Manufacturer	GT Line
Weight (kg)	4,0000
Depth	25,00
