Description

The GT Line-5122.B waterproof case with interior foam insert is the ideal solution for those who require safe and reliable transport of their equipment in extreme conditions. Designed with a focus on durability and protection, this case is shockproof, crushproof, and resistant to corrosive products, guaranteeing the integrity of its contents in any situation. Its IP67 rating ensures it is watertight to a depth of 10 meters, making it a perfect choice for water activities or humid environments. Furthermore, its construction from reinforced polypropylene gives it exceptional resistance to extreme temperatures, from -33°C to +90°C.

- Shock and crush resistant.
- Waterproof - IP67 certified - Watertight up to 10m.
- Dust and sand resistant.
- Corrosive resistant.
- Pressure change resistant.
- High-density plastic resin material (reinforced polypropylene).
- Stackable, even with models of different sizes.
- Valve to adjust internal pressure in response to changes in altitude or temperature.
- Supports to keep the suitcase upright while the lid is open.
- Includes wheels and a telescopic handle (trolley).

With multiple customization options in colors and an adaptable interior with foam layers The micro-perforated GT Line-5122.B is the perfect choice for military and professional applications that demand maximum security and functionality.

Specifications

High	55,00
