Description

The ATM-770042 cable guide wheel head is an essential component for facilitating access between manholes. Designed with an aluminum construction, this part guarantees optimal durability and strength, while also offering a lightweight design for easy handling. Its innovative design provides excellent sliding properties, allowing for smooth and efficient movement during installation and maintenance operations. This wheeled head is ideal for applications requiring quick and effective access to underground systems, ensuring reliable performance under diverse working conditions.

- **Model:** ATM-770042
- **Type:** Wheeled head for cable guides
- **Guide diameter:** 9 mm
- **Thread:** M12
- **Material:** Aluminum
- **Sliding properties:** Excellent
- **Use:** Access between manholes
- **Applications:** Electrical installations, telecommunications, and drainage systems
- **Weight:** Light
- **Durability:** High corrosion resistance

Specifications

EAN	8435130716149
Manufacturer	ATM
Weight (kg)	0,0700
Cable cross-section (mm ²)	9
