Description

Witte-28521 PH 2 Impact Bits are specifically designed to maximize the efficiency of professional cordless impact drivers. These bits are ideal for applications requiring high torque, offering superior strength and a longer lifespan compared to standard bits. Their construction is based on a unique torsional shape, highly flexible material, and specially hardened steel, making them a reliable choice for demanding jobs.

With a compact design of 38 mm in length, these bits allow for direct application in cordless impact drivers without the need for a bit holder, thus facilitating more controlled and efficient handling.

These are especially recommended for screwdrivers operating with tightening torques above 25 Nm, guaranteeing optimal performance with every use.

- Compact 38 mm design
- Direct application on cordless screwdrivers
- Unique torsional shape for greater strength
- Highly flexible material
- Special tempered steel for greater durability
- Recommended for tightening torques above 25 Nm
- 1/4" guide
- Optimal integral torsion area
- Great handling control
- Compatible with professional impact tools

Specifications

High	0,00
Width	0,00
EAN	4003955321875
Manufacturer	WITTE
Weight (kg)	0,0000
Depth	0,00
