WITTE T 20 impact bits with ergonomic design and high durability.

Brand: Witte

Reference: TUR 28491

Witte-28491-T20 impact bits, designed for cordless screwdrivers. Measuring 38 mm in length, they offer high strength and durability thanks to their torsional shape and flexible material. Ideal for tightening torques above 25 Nm. 1/4" drive.

Description

Witte-28491-T20 impact bits are specifically designed to maximize the efficiency of professional cordless impact drivers. These bits are essential for ensuring optimal performance in applications requiring high torque, exceeding 25 Nm. Their advanced construction provides superior strength and extended lifespan compared to standard bits, making them an ideal choice for demanding jobs.

The key to their durability lies in their unique torsional shape, which allows for even force distribution, and in the use of a highly flexible material combined with specially hardened steel.

This design not only improves wear resistance but also facilitates more controlled handling during use.

With a compact size of 38 mm, these bits allow direct application in cordless screwdrivers without the need for a bit holder, thus optimizing the work process.

- Compact 38 mm design
- Direct application in cordless screwdrivers
- Unique torsional shape for greater strength
- Highly flexible material
- Special tempered steel for greater durability
- Recommended for tightening torques above 25 Nm
- 1/4" guide
- Optimal integral torsion area
- Great handling control

Specifications

High	0,00
Width	0,00
EAN	4003955321820
Manufacturer	WITTE
Weight (kg)	0,0000
Depth	0,00
