Description

Witte-428555-3 impact bits are a professional solution specifically designed for cordless impact drivers. These bits stand out for their exceptional strength and durability, surpassing standard bits thanks to their innovative torsional shape, highly flexible material, and specially hardened steel. With a compact 38 mm length, they allow for direct application in impact drivers without the need for a bit holder, making them easier to use and improving control during handling. These are especially recommended for tools that operate with tightening torques above 25 Nm, guaranteeing optimal performance in demanding tasks.
