Description

Witte-428559-3 impact bits are a high-quality solution for professional cordless impact drivers. Specifically designed to maximize the efficiency of these tools, these bits offer superior strength and a longer lifespan compared to standard bits. This is achieved thanks to their unique torsional shape, highly flexible material, and specially hardened steel that ensures optimal performance even under demanding conditions.

With a compact design of 38 mm in length, the bits allow for direct application in cordless impact drivers without the need for a bit holder, making them easier to handle and control.

These are especially recommended for screwdrivers that operate with tightening torques above 25 Nm, thus ensuring efficient and safe work.

- Model: Witte-428559-3
- Type: Impact Bits
- Length: 38 mm
- Guide: 1/4"
- Material: Hardened Special Steel
- Shape: Unique Torsional
- Flexibility: High
- Recommended for tightening torques> 25 Nm
- Direct application on cordless screwdrivers
- Greater resistance and service life

Specifications

High	2,00
Width	5,00
EAN	4003955322025
Manufacturer	WITTE
Material	Plástico
Weight (kg)	0,0300
Depth	8,50
