Product sheet

WITTE T 15 impact bits in plastic case, 3 units.

Brand: Witte

Reference: TUR 428550

Witte-428550-3 impact bits in a T15 plastic case, designed for cordless screwdrivers. Measuring 38 mm in length, they offer high strength and durability thanks to their torsional shape and flexible material. Ideal for tightening torques above 25 Nm.

Description

Witte-428550-3 impact bits are specifically designed to maximize the efficiency of professional cordless impact drivers. These bits are essential for ensuring optimal performance in screwdriving tasks that require high power and precision. Their advanced construction provides superior strength and a longer lifespan compared to standard bits, making them an ideal choice for demanding jobs.

The key to their durability lies in their unique torsional shape, which allows for even force distribution, and in the use of a highly flexible material combined with specially hardened steel. This design not only improves wear resistance but also ensures more controlled handling during use.

With a compact size of 38 mm, these bits allow for direct application in cordless impact drivers without the need for a bit holder, thus facilitating work in confined spaces.

These are especially recommended for screwdrivers operating with tightening torques above 25 Nm, guaranteeing exceptional performance with every use.

- Model: Witte-428550-3
- Type: Impact Bits
- Length: 38 mm
- Guide: 1/4"
- Material: Hardened Special Steel
- Shape: Unique Torsional
- Flexibility: High
- Recommended for tightening torques> 25 Nm

- Direct application without a bit holder
- Compact design for better control

Specifications

High	2,00
Width	5,00
EAN	4003955321936
Manufacturer	WITTE
Material	Plástico
Weight (kg)	0,0300
Depth	8,50
