Description

Witte-428551-3 impact bits are an essential tool for professional cordless impact drivers, specifically designed to maximize efficiency and durability in demanding jobs. These bits stand out for their superior strength and extended lifespan compared to standard bits, thanks to their innovative torsional shape, highly flexible material, and specially hardened steel. With a compact 38 mm design, these bits allow direct application in cordless screwdrivers without the need for a bit holder, making them easier to use and improving control during operation. These bits are especially recommended for screwdrivers operating with tightening torques above 25 Nm, guaranteeing optimal performance in demanding tasks.
Nm
Use: Direct on cordless screwdrivers
Advantage: Optimal integral torque area

Specifications

High	2,00
Width	5,00
EAN	4003955321943
Manufacturer	WITTE
Material	Plástico
Weight (kg)	0,0300
Depth	8,50
