Description

Witte-428553-3 impact bits are an essential tool for professionals using cordless impact drivers. Specifically designed to maximize the efficiency of these tools, these bits offer superior strength and a longer lifespan compared to standard bits. This is achieved thanks to their unique torsional shape, highly flexible material, and the use of specially hardened steel, which guarantee exceptional performance in demanding tasks.

With a compact design of 38 mm in length, the bits allow for direct application in cordless impact drivers without the need for a bit holder, making them easier to use and improving control during handling.

These are especially recommended for screwdrivers operating with tightening torques above 25 Nm, thus ensuring efficient and precise work.

- Model: Witte-428553-3
- Type: Impact bits
- Length: 38 mm
- Guide: 1/4"
- Material: Hardened special steel
- Shape: Unique torsion shape
- Flexibility: High
- Recommended for tightening torques> 25 Nm
- Direct application without a bit holder
- Optimal integral torsion area

Specifications

High	2,00
Width	5,00
EAN	4003955321967
Manufacturer	WITTE
Material	Plástico
Weight (kg)	0,0300
Depth	8,50
