Description

Witte-428554-3 impact bits are the ideal solution for maximizing the efficiency of professional cordless impact drivers. Designed specifically for these tools, these bits offer superior strength and a longer lifespan compared to standard bits. This is achieved thanks to their unique torsional shape, highly flexible material, and the use of specially hardened steel, which guarantee exceptional performance in demanding applications.

With a compact design of 38 mm in length, the bits allow for direct application in cordless impact drivers without the need for a bit holder, thus facilitating their use and improving control during handling.

These are especially recommended for screwdrivers operating with tightening torques above 25 Nm, ensuring efficient and precise work.

- Model: Witte-428554-3
- Type: Impact Bits
- Length: 38 mm
- Guide: 1/4"
- Material: Hardened Special Steel
- Shape: Unique Torsional
- Flexibility: High
- Recommended for tightening torques> 25 Nm
- Direct application without a bit holder
- Optimal integral torsion area

Specifications

High	2,00
Width	5,00
EAN	4003955321974
Manufacturer	WITTE
Material	Plástico
Weight (kg)	0,0300
Depth	8,50
