Description

Witte-28376 impact bits are specifically designed to maximize the efficiency of professional cordless impact drivers. These bits are the ideal solution for those seeking superior performance and extended tool life. Thanks to their unique torsional shape and the use of specially hardened steel, these bits offer remarkable strength compared to standard bits, making them a reliable choice for demanding jobs.

With a compact design of 38 mm in length, Witte bits allow for direct application in cordless impact drivers without the need for a bit holder, thus facilitating their use and increasing operator comfort.

Its structure optimizes the overall torsion area, providing excellent handling control, especially in tasks requiring tightening torques above 25 Nm.

- Specifically designed for cordless impact drivers.
- Greater strength and lifespan compared to standard bits.
- Unique torsional shape that improves performance.
- Highly flexible material that absorbs impact.
- Made of specially hardened steel for greater durability.
- 38 mm length for direct application.
- Compatible with screwdrivers with a 1/4" drive.
- Recommended for tightening torques above 25 Nm.
- 1 unit per blister pack.

Specifications

EAN	4003955322094
Manufacturer	WITTE
Weight (kg)	0,0100
