Description

Witte-28377 impact bits are specifically designed to maximize the efficiency of professional cordless impact drivers. These bits are ideal for jobs requiring high performance and durability, thanks to their advanced construction that surpasses the capabilities of standard bits. Their unique torsional shape and the use of specially hardened steel ensure exceptional strength and a long service life.

With a compact design of 38 mm in length, these bits allow for direct application in cordless impact drivers without the need for a bit holder, facilitating more agile and precise handling.

These are especially recommended for tools operating with tightening torques above 25 Nm, ensuring optimal performance in demanding tasks.

- 1/4" guide.
- 38 mm length.
- Unique torsional shape for greater strength.
- Highly flexible material that improves durability.
- Made of special hardened steel.
- Direct application on cordless screwdrivers.
- Optimal integral torsion area.
- Excellent handling control.
- Recommended for tightening torques above 25 Nm.
- Individually blister-packed (1 unit).

Specifications

EAN	4003955322100
Manufacturer	WITTE
Weight (kg)	0,0100
