Description

Witte-28381 impact bits are specifically designed to maximize the efficiency of professional cordless impact drivers. These bits are ideal for jobs requiring high performance and durability, thanks to their advanced construction that surpasses the capabilities of standard bits.

The strength and long lifespan of Witte bits are due to their:

- **Unique torsional shape** that allows for better force distribution.
- **Highly flexible material** that absorbs impact and reduces the risk of breakage.
- **Special tempered steel** that provides greater hardness and wear resistance.

With a compact design of 38 mm in length, these bits offer:

- **Direct application** in cordless screwdrivers without the need for a bit holder.
- **Optimal integral torsion area** that improves control during handling.

They are especially recommended for screwdrivers that operate with tightening torques above 25 Nm, guaranteeing exceptional performance in demanding tasks. The 1/4" guide ensures broad compatibility with various tools. Presented in a practical individual blister pack, each package contains 1 unit, ideal for always having a high-quality tool on hand.

Specifications

EAN	4003955322148
Manufacturer	WITTE
Weight (kg)	0,0100
