Description

The Hultafors-390013 chisel is an essential tool for any woodworking enthusiast or professional. Designed for exceptional performance, this chisel features a high-quality Japanese steel blade, ensuring long-lasting sharpness and superior wear resistance. Its rust-resistant coating provides added protection, ensuring the tool maintains its effectiveness over time. The handle, made of fiberglass reinforced with PP plastic, is designed to withstand heavy hammer blows, making it an ideal choice for demanding tasks such as carving, cutting, scraping, and prying in wood. Furthermore, the chisel comes in a ventilated PP plastic sheath, which allows for perfect preservation and facilitates transport.

- **Japanese steel blade:** Sharp and durable.
- **Anti-rust coating:** Protection against corrosion.
- **Reinforced handle:** Made of fiberglass and PP plastic.
- **Impact resistance:** Suitable for hammer blows.
- **Versatility:** Ideal for carving, cutting, scraping, and prying.
- **Storage sheath:** Ventilated PP plastic to keep the tool in optimal condition.
- **Ergonomic design:** Facilitates handling and precision in work.
- **Dimensions:** 6-6 x 232 mm.
- **Professional and amateur use:** Suitable for various woodworking applications.
- **Hultafors Quality:** Renowned for its reliability and durability.

Specifications

High	4,00
