Description

The Hultafors-390053 chisel is an essential tool for any woodworking enthusiast or professional. Designed for superior performance, this chisel features a high-quality Japanese steel blade, ensuring long-lasting sharpness and exceptional wear resistance. Its rust-resistant coating protects the blade, ensuring it remains in optimal condition even in humid environments. The handle, made of fiberglass reinforced with PP plastic, is designed to withstand heavy impacts, making it a robust and reliable tool for a variety of applications. This chisel is ideal for carving, cutting, scraping, and prying wood, making it a versatile choice for any woodworking project. Furthermore, it comes in a ventilated PP plastic sheath, which allows for perfect preservation and storage of the tool.
