Description

The Interflex-AC411JFE.120.50.320 is an abrasive roll specifically designed for manual polishing and sanding of wood and metal surfaces. This product, formerly known as WJ.RR, is characterized by its high quality and versatility, making it an essential tool for professionals and DIY enthusiasts. Its composition of aluminum oxide (AO) and resin-on-resin binder ensures optimal performance and long durability, allowing for fine and precise finishes.

The J-fabric backing is made of 100% cotton, providing flexibility and resistance during use. Its very fine 320 grit makes it the ideal choice for delicate woodworking, ensuring smooth and even sanding without damaging the surface.

The brown color of the abrasive is an indication of its composition and quality.
