Description

The Ruko-244194 M14 thread assembly tool is an essential device for repairing damaged threads. This system restores the functionality of screws and bolts, ensuring a secure and lasting fit. Its use is simple and based on a four-step process: drilling, tapping, assembling the threaded insert, and breaking the threaded end. The tool is designed to work with RUKO twist drills, ensuring a precise and efficient finish. The addition of cutting oil during tapping optimizes performance and extends tool life.

- **Compatibility:** Designed for M14 threads.
- **Material:** Made from high-quality materials for increased durability.
- **Repair Process:** Includes drilling, tapping, and bushing assembly.
- **Use of Cutting Oil:** Recommended for a better finish and less wear.
- **Clear Instructions:** Detailed process for correct and safe use.
- **Retaining Pin:** Design that ensures a firm and precise fit.
- **Break-Off Chuck:** Facilitates breaking the retaining pin.
- **Versatility:** Ideal for applications in various materials.
- **Precision:** Ensures a perfect fit on the new thread.
- **Easy handling:** Intuitive tool that simplifies the repair process.

Specifications

High	5,00
Width	5,00
EAN	4007140366481
Manufacturer	Ruko
Weight (kg)	1,0000
Depth	17,00
