Description

The Ruko-265040UNC is a machine tap specifically designed for creating through threads in metal. Manufactured with a reinforced shank, this tap ensures greater durability and strength during use. Its design includes a coarse American UNC thread, providing a precise and secure fit. The tap's flanks feature a ground relief, optimizing performance and thread quality. This product is an essential tool for professionals who require precision and reliability in their machining work.

- **Type:** Machine tap
- **Shank:** Reinforced
- **Application:** Through hole tapping
- **Thread:** American UNC coarse
- **Flanks:** Offset ground
- **Standard:** DIN 371
- **Material:** HSSE-Co 5
- **Thread size:** No. 4
- **Use:** Ideal for metal machining
- **Durability:** High wear resistance

Specifications

EAN	4007140099303
Manufacturer	Ruko
Weight (kg)	0,0100
