Description

The Ruko-265050UNC is a machine tap specifically designed for creating through threads in metal materials. This product features a reinforced shank that provides greater durability and strength during the tapping process. Its design is optimized for working with coarse UNC threads, in accordance with American standards, ensuring exceptional compatibility and precision in industrial applications. The ground flanks allow for a cleaner and more efficient cut, minimizing the risk of breakage and premature wear.

- **Type:** Machine tap
- **Shank:** Reinforced
- **Application:** Through threading
- **Thread:** American UNC coarse
- **Standard:** DIN 371
- **Material:** HSSE-Co 5
- **Flanks:** Ground flanks
- **Thread size:** No. 5
- **Use:** Ideal for industrial applications
- **Durability:** High wear resistance

Specifications

EAN	4007140099310
Manufacturer	Ruko
Weight (kg)	0,0100
