RUKO HSSE-Co 5 DIN 371 type B tap, thread No. 12, ground.

Brand: Ruko

Reference: TUR 265120UNC

Ruko-265120UNC machine tap, designed for through threads. Made of HSSE-Co 5 steel, with a reinforced shank and ground, chamfered flanks. American coarse UNC thread, ideal for industrial applications. Thread size #12.

[View product online](#)**Description**

The Ruko-265120UNC is a machine tap specifically designed for creating through threads in metal. Manufactured with a reinforced shank, this tap ensures greater durability and strength during use, making it an essential tool for professionals in the mechanical and manufacturing fields. Its design includes ground flanks, allowing for a more efficient and precise cut, guaranteeing high-quality results every time. The American UNC coarse thread provides optimal compatibility with a wide range of screws and nuts, facilitating its integration into diverse projects.

- **Model:** Ruko-265120UNC
- **Type:** Machine tap
- **Shank:** Reinforced
- **Application:** Through threading
- **Thread:** American UNC coarse
- **Flanks:** Offset ground
- **Standard:** DIN 371
- **Material:** HSSE-Co 5
- **Thread No.:** 12
- **Recommended use:** Metals and alloys

Specifications

EAN	4007140099358
Manufacturer	Ruko
Weight (kg)	0,0100
