Description

The Ruko-266014UNC is a machine tap specifically designed for threading blind holes. This tap features a reinforced shank for increased durability and strength. The right-hand helical flutes, with a 35° RSP angle, allow for efficient and precise cutting, ensuring optimal results in industrial applications. The American UNC coarse thread ensures broad compatibility with different types of materials and applications, while the offset flank grinding improves the thread finish quality.

- **Type:** Machine tap
- **Shank:** Reinforced
- **Flutes:** Right-hand helical, 35° RSP
- **Application:** Blind hole threads
- **Thread:** American UNC coarse
- **Flanks:** Offset ground
- **Material:** HSSE-Co 5
- **Standard:** DIN 371
- **Diameter:** 1/4"
- **Use:** Industrial and professional
