Description

The Ruko-266010UNC is a machine tap specifically designed for threading blind holes. This tap features a flute shank that facilitates chip evacuation, optimizing the tapping process. Its design includes right-hand helical flutes with a 35° RSP angle, ensuring efficient and precise cutting. The thread is a coarse UNC type, conforming to American specifications, making it a versatile tool for various industrial applications. Furthermore, the tap flanks undergo a back-ground process, which improves the finish quality and extends the tool's lifespan.

- **Type:** Machine tap
- **Shank:** Overflow
- **Flutes:** Right-hand helical, 35° RSP
- **Thread:** American UNC coarse
- **Application:** Tapping in blind holes
- **Flanks:** Back-ground
- **Material:** HSSE-Co 5
- **Standard:** DIN 376
- **Thread size:** 1"
- **Use:** Industrial and mechanical

Specifications

EAN	4007140099600
Manufacturer	Ruko
Weight (kg)	0,3700
