Description

The Ruko-265060UNF is a machine tap specifically designed for creating through threads. Manufactured with a reinforced shank, this tap ensures high strength and durability during use. Its design incorporates an American UNF fine thread, making it a versatile tool for applications requiring precision and quality machining. The relief grinding of the flanks allows for a more efficient and cleaner cut, facilitating the threading process and improving the thread finish.

- **Type:** Machine tap
- **Shank:** Reinforced
- **Application:** Through threading
- **Thread:** American UNF fine
- **Flanks:** Relief grinding
- **Standard:** DIN 371
- **Material:** HSSE-Co 5
- **Cutting type:** Type B grinding
- **Thread size:** No. 6
- **Recommended use:** Machining of precision

This tap is an essential tool for professionals seeking optimal results in their machining projects.

Specifications

EAN	4007140099655
Manufacturer	Ruko
Weight (kg)	0,0100
