

Product sheet

**RUKO HSSE-Co 5 ground tap
type B, 1/4 UNF thread, DIN
371.**

Brand: Ruko

Reference: TUR 265014UNF

Ruko-265014UNF machine tap, designed for through threads. Manufactured with a reinforced shank and ground, derelieved flanks. American UNF fine thread, ideal for applications requiring precision and durability. 1/4" thread.

[View product online](#)**Description**

The Ruko-265014UNF is a machine tap specifically designed for creating high-precision through threads. This product features a reinforced shank for increased durability and strength during use. Its design includes an American UNF fine thread, making it a versatile tool for applications requiring a quality finish. Furthermore, the tap flanks undergo a back-ground process, ensuring a clean and efficient cut, minimizing tool wear, and optimizing performance in every operation.

- **Type:** Machine tap
- **Shank:** Reinforced
- **Application:** Through threading
- **Thread:** American UNF fine
- **Flanks:** Back-ground
- **Standard:** DIN 371
- **Material:** HSSE-Co 5
- **Thread diameter:** 1/4"
- **Use:** Industrial and professional
- **Durability:** High wear resistance

Specifications

EAN	4007140099693
Manufacturer	Ruko
Weight (kg)	0,0200
