Description

The Ruko-265010UNF is a machine tap specifically designed for creating through threads. This product features a flute shank that facilitates the tapping process, ensuring a precise and efficient finish. Its design incorporates an American UNF fine thread, making it a versatile tool for various industrial applications. The ground relief of the flanks ensures greater durability and optimal performance, allowing for extended use without compromising the quality of the work performed.

- **Type:** Machine tap
- **Shank:** Through thread tap
- **Thread:** American UNF fine
- **Flanks:** Ground relief
- **Standard:** DIN 374
- **Material:** HSSE-Co 5
- **Applications:** Ideal for precision work in metal and other materials
- **Dimensions:** 1" thread
- **Use:** Compatible with various tapping machines
- **Durability:** High wear resistance

This tap is an essential tool for professionals seeking quality and precision in their machining projects.

Specifications

EAN	4007140099785
Manufacturer	Ruko
Weight (kg)	0,3700
