### Description

The Ruko-266010UNF is a machine tap specifically designed for threading blind holes. This tap features a flute shank and right-hand helical flutes with a 35° RSP angle, facilitating precise and efficient cutting. Its design is optimized for working with American UNF fine threads, ensuring a high-quality finish and durability. The ground relief of the flanks allows for greater wear resistance and better chip evacuation, resulting in a smoother and more effective threading process.

- **Type:** Machine tap
- **Shank:** Overflow
- **Flutes:** Right-hand helical, 35° RSP
- **Application:** Tapping in blind holes
- **Thread:** American UNF fine
- **Flanks:** Ground relief
- **Material:** HSSE-Co 5
- **Standard:** DIN 374
- **Thread diameter:** 1"
- **Recommended use:** Industrial and mechanical applications

### Specifications

|              |               |
|--------------|---------------|
| EAN          | 4007140099952 |
| Manufacturer | Ruko          |
| Weight (kg)  | 0,3700        |

may contain errors or omissions and does not replace the manufacturer datasheet.
