Description

The Ruko-264007 tap is a high-precision tool specifically designed for machine tools, ideal for creating through threads in industrial applications. Made of high-quality steel, this tap features a flute shank that facilitates the threading process in shielding pipes, ensuring an optimal and durable finish. Its design with ground, offset flanks allows for greater cutting efficiency, reducing friction and tool wear, resulting in superior performance and extended tool life.

- **Model:** Ruko-264007
- **Type:** Machine tap
- **Shank:** Overflow for through threads
- **Material:** Shielded pipe steel
- **Flanks:** Ground, offset
- **Application:** Ideal for industrial and mechanical work
- **Use:** Compatible with various tapping machines
- **Durability:** High wear resistance
- **Precision:** Clean and accurate cut
- **Dimensions:** PG 7 thread

Specifications

EAN	4007140100030
Manufacturer	Ruko
Weight (kg)	0,0400
