Description

The Ruko-264135 PG HSS Machine Tap is a high-precision tool designed for creating through threads in steel materials. This tap features a flue shank, which facilitates chip evacuation and improves efficiency in the tapping process. Its construction from shielding steel ensures exceptional durability and wear resistance, making it an ideal choice for demanding industrial applications. The offset grinding of the flanks allows for a cleaner and more precise cut, ensuring optimal results every time.

- **Type:** Machine tap
- **Shank:** Overflow for through threads
- **Material:** Shielded pipe steel
- **Flanks:** Offset grinding
- **Application:** Ideal for through threads in steel
- **Durability:** High wear resistance
- **Accuracy:** Clean and precise cut
- **Use:** Compatible with various tapping machines
- **Dimensions:** PG 13
- **Manufacturer:** Ruko

Specifications

EAN	4007140100061
Manufacturer	Ruko
Weight (kg)	0,1300
