Description

The Ruko-264021 tap is a high-precision tool specifically designed for machine tools, ideal for creating through threads in industrial applications. Made of high-quality steel, this tap is optimized for working with shielding pipes, ensuring exceptional durability and strength. Its design includes a flue shank that facilitates chip evacuation, improving the efficiency of the tapping process. The raised flank grinding ensures a clean and precise cut, resulting in high-quality threads and a superior finish.

- **Model:** Ruko-264021
- **Type:** Machine tap
- **Shank:** Through thread flute
- **Material:** Shielded pipe steel
- **Flanks:** Raised flanks
- **Application:** Ideal for through threads in industrial environments
- **Durability:** High strength and long service life
- **Accuracy:** Clean cut and superior finish
- **Compatibility:** Designed for use on tapping machines
- **Dimensions:** PG 21 thread

Specifications

EAN	4007140100085
Manufacturer	Ruko
Weight (kg)	0,1800
