Description

The Ruko-264029 tap is a high-precision tool designed for creating through threads on machines. Made from high-quality steel, this tap is specially designed for working with armored tubes, ensuring exceptional durability and strength. Its flue shank allows for efficient chip removal, optimizing the tapping process and improving the finish quality. The ground relief of the flanks ensures a clean and precise cut, facilitating operation and extending the tool's lifespan.

- **Model:** Ruko-264029
- **Type:** Machine tap
- **Shank:** Overflow for through threads
- **Material:** Shielded pipe steel
- **Flanks:** Ground relief
- **Application:** Ideal for threading shielded pipes
- **Durability:** High wear resistance
- **Accuracy:** Clean and precise cut
- **Usage:** Compatible with various tapping machines
- **Dimensions:** PG 29

Specifications

EAN	4007140100092
Manufacturer	Ruko
Weight (kg)	0,4800
