RUKO HSS ground threading bearing 7/8" DIN EN 22568

Brand: Ruko

Reference: TUR 240078UNF

HSS ground, closed, pre-grooved, DIN EN 22568 UNF threading bearing. Features a 7/8" American UNF fine thread, ideal for applications requiring precision and durability in the assembly of mechanical components.

Description

The Ruko-240078UNF threading bearing is a high-precision component designed for applications requiring a secure and reliable fit. Manufactured according to DIN EN 22568 standards, this bearing features a ground finish that ensures excellent surface quality and extended durability. Its closed, pre-grooved Type B design allows for easy and efficient installation, optimizing performance under various working conditions. The 7/8" American UNF fine thread provides a robust and stable connection, ideal for industrial and mechanical applications demanding a high level of precision.

- **Type:** B closed, pre-grooved
- **Thread:** American UNF fine
- **Standard:** DIN EN 22568
- **Finish:** ground
- **Thread diameter:** 7/8"
- **Material:** high-quality steel
- **Applications:** industrial and mechanical
- **Durability:** high wear resistance
- **Installation:** simple and efficient
- **Precision:** high surface quality

Specifications

High	2,00
Width	6,50
EAN	4007140068583
Manufacturer	Ruko
Weight (kg)	0,1700

Depth	6,50
