Product sheet

RUKO universal carbide core drill bit Ø 16 mm for precise drilling.

Brand: Ruko

Reference: TUR 113016-1

The Ruko-113016-1 core drill bit is made of carbide and is universal, with a diameter of 16.0 mm. Ideal for drilling various materials, it offers durability and precision in drilling applications. Compatible with different drilling systems.

Description

The Ruko-113016-1 hole saw is designed to deliver exceptional performance when drilling hard materials. With a 16.0 mm diameter, this tool is ideal for industrial and construction applications, ensuring precise and efficient cuts on a variety of surfaces. Its carbide construction provides superior durability and wear resistance, making it a reliable choice for professionals who require high-quality tools.

The hole saw's structure is optimized for easy chip removal, improving work efficiency and reducing drilling time.

Its universal design allows it to be used in different types of drills, making it versatile and adaptable to various needs.

- **Diameter:** 16.0 mm
- **Material:** Carbide
- **Type:** Universal
- **Applications:** Drilling in hard materials
- **Durability:** High wear resistance
- **Chip removal:** Optimized for greater efficiency
- **Compatibility:** Suitable for different types of drills
- **Use:** Professional and industrial
- **Quality:** High-precision manufacturing
- **Temperature range:** Suitable for working in demanding conditions

Specifications

High	3,00
Width	3,00
EAN	4007140362728
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,1200
Depth	12,00
