Product sheet

RUKO universal carbide core drill bit Ø 20 mm, ideal for precise drilling.

Brand: Ruko

Reference: TUR 113020-1

The Ruko-113020-1 core drill bit is made of carbide and is universal, with a diameter of 20.0 mm. Ideal for drilling various materials, it offers durability and precision in drilling applications. Compatible with different drill systems.

Description

The Ruko-113020-1 hole saw is designed to deliver exceptional performance when cutting hard materials. With a 20.0 mm diameter, this tool is ideal for industrial and construction applications, guaranteeing precision and durability with every hole. Its carbide construction ensures superior wear resistance, allowing for extended use without compromising work quality.

The hole saw's structure is optimized to facilitate the drilling process, minimizing friction and heat buildup during use. This results in greater efficiency and reduced working time.

The Ruko-113020-1 is compatible with a wide variety of materials, making it a versatile tool for professionals in the industry.

- **Diameter:** 20.0 mm
- **Material:** Carbide
- **Type:** Universal
- **Applications:** Drilling in hard materials
- **Durability:** High wear resistance
- **Compatibility:** Suitable for various drilling machines
- **Design:** Optimized to reduce friction
- **Use:** Ideal for professional and industrial applications
- **Temperature range:** Suitable for high operating temperatures
- **Manufacturer:** Ruko

Specifications

High	3,00
Width	3,00
EAN	4007140362766
Manufacturer	Ruko
Material	Metal
Weight (kg)	0,1500
Depth	12,00
